We are pleased to announce

FIT Supervision Intensive Training 2017

March 13-15, 2017 in Chicago, Illinois, USA

Fee \$1095

Register at: <https://www.eventbrite.ie/e/fit-supervision-intensive-training-2017-tickets-22925200893>

Supervision is key to successful use of Feedback Informed Treatment (FIT) in clinical practice as well as to implementation and sustainment of FIT in agency settings. Join ICCE Founder and Director, Scott D. Miller Ph.D. for three dynamic, fun and informative days of FIT Supervision Training. Earn CEU's while learning:

- What differentiates FIT supervision from conventional supervision
- How FIT supervision can help agencies develop and maintain cultures conducive to successful FIT implementation
- How to use client feedback to guide clinical supervision practice and help clinicians achieve superior outcomes
- What the most common challenges are in FIT supervision and how to overcome them

Through a combination of didactic presentations, skill building exercises and feedback, FIT Supervision Training is designed to prepare participants to provide effective supervision to therapists using Feedback Informed Treatment (FIT). The training will be run by ICCE Director, Scott Miller, Ph.D. and the ICCE Professional Development team.

The training venue is situated along the beautiful "Magnificent Mile," near Northwestern University Hospital, atop a tall building, overlooking Lake Michigan, and steps from the best retail therapy and blues bars in Chicago!

Participants will receive:

Set of ICCE FIT Training and Treatment Manuals valued at \$99 USD

Continental breakfast each day of the training

Certificate of attendance documenting 18 hours of continuing education

Detailed state of the art handouts and FIT Supervision documentation forms

Please note: FIT Supervision Intensive Training usually sells out several months in advance. REGISTER TODAY!
